A brief description of the project

This initiative is the publication and dissemination of a culture of dialogue and coexistence and acceptance of the other party whatever the differences in religious belief, culture, civilization, language and other social and human values.

also, this project comes in the context of events and global developments and takes them from the chaos of security, economic, social and environmental, as well as the growing manifestations of terrorism, extremism and discrimination in all its forms, combined to threaten human life on planet Earth or immune to one of the dangers and perhaps the most important and driving force of Arab-Israeli conflict.

And the Arab-Israeli conflict is exhausting all parties to the international community, governments, institutions and communities and individuals as well as parties to the dispute directly involved in the region which impacted negatively on all aspects of life and hindered the elements of comprehensive and sustainable development in the region and has become the conflict represents the leading sources of threat to international peace and security.

Given that the area targeted by this initiative is one of the most important centers of attention in the world by political decision makers and economic and the general public and the elite against the backdrop of its authority ideological, historical, cultural and geo-strategy, due to the international nature of the Arab-Israeli conflict, which was often a source of disagreement is almost plagued international relations, The region has witnessed devastating wars, which almost led to the collision between the two camps east and west in the last century and is still its effects visible to the day effectively in international relations, despite the initiatives and regional and international conferences aimed at finding a final solution to this conflict, which is something like a major cause in the growth of extremist movements in several regions of the world, and the emergence of extremist currents that are often civilians pay the price for their work, and promote the radical Islamic ideology, especially following the events of September 11 and the launching of the so-called war on terror and its concomitant implications profound effects and implications.

This, in addition to the economic cost of serious conflict, increase the direct role in the emergence of an arms race in all its forms of conventional and nuclear proliferation that causes mass destruction, which made this situation accounts for much of the economic resources of the region, as a priority at the expense of development.

In addition to the resentment and hatred engendered by this conflict, which was a central cause in the collision of cultures and civilizations and the spread of religious intolerance, ethnic and sectarian.

Accordingly, it is imperative to think seriously to save humanity from the dangers generated by this situation and push for comprehensive and just peace and sustainable.

▪ Objectives:

The project aims to contribute to serious in achieving the following objectives in accordance with a specific timetable:

- Enhance communication between individuals and groups, the Palestinians and the Israelis to build a base of social relations and human institutions to restore confidence to include this effort Arab countries, Islamic and international help to enrich the dialogue and communication in order to provide a suitable environment for reconciliation and coexistence for lasting peace.

- The promotion of various initiatives aimed at achieving a peace to be a tributary of the international efforts that are in the same direction and towards security, development and stability for the benefit of Palestinian and Israeli peoples and all peoples of the region.

- Develop mechanisms to put pressure on politicians (Israelis and Palestinians and others) to deal positively with these efforts and motivate them to modify the strings of political orientation

towards the wishes of their people.

- Building a network of supporters of peace in the Middle East based on the selection of rational international community and the proponents of reconciliation to resolve the Arab-Israeli conflict by peaceful means and dialogue.

- Work to convince all parties to the conflict need to respond to the voice of reason and abandon all forms of hatred, arrogance and leave to find effective solutions to development problems and think of future generations.

- Stimulating young people to play a leading role in building a climate of social and public calls for dialogue to resolve the conflict between the two peoples and the final pieces with past conflicts, who have not only the tragedies and replaced by dialogue and coexistence for a bright future for all.

- Promotion of durable peace and coexistence through dedicated work to break the ice accumulated to the conflict and establishing normal relations between Arab and Israeli peoples to facilitate regional integration in the system on the one hand and the international system without marginalization, exclusion or discrimination.

- Democracy in the Arab region and to support good governance and freedom of expression and human rights and the emphasis on fighting corruption and financial management in a transparent and work to achieve economic and social development and cultural and this would narrow the field to the manifestations of terrorism and extremism.

To the total of these goals, the project will be based outreach plan the ambitious modern techniques of communication and information and media communication innovations are implemented in phases with funds by several parties, international organizations and the private sector and the UN bodies and other country interested in this topic.

- plan communication and bearings:

- Design a website for this activity we have chosen a title: the face of peace the voice of reason in order to build bridges of communication and for coexistence and peace www.facepeace.net. The site contains meaningful content in multiple languages (English, French, Arabic and Hebrew) respond to the hubs of activity and its objectives.

- Design E-Greeting Cards (default) reflect consistent with the various areas of activity include specific messages to help restore confidence and build bridges humanity is exchanged between the various social strata in both the Palestinian territories and Israel or other parts of the world to assist the parties to the conflict to reconciliation and coexistence in order to achieve peace Awards are allocated for the benefit of the incentive is sending the largest possible number of these cards from among people online in the Euro-Mediterranean region and the world .. (Funded by the private sector, institutions and regional and international organizations entitled support and care and Alischhar) and be attached to an e-question multiple languages. Will be adopted as a result of this sounding of the views to measure the impact of the activity and help build the next steps. Also be adopted when drafting the final report of the activity, and hand-funded entitlement to obtain a copy of it.

- Design and print postcards real consistent in form and content of the choice of graphics and text messages to be routed and hubs of activity are distributed by mail in cooperation with our partners in the Palestinian territories and Israel in the framework of the partnership contract for this activity in both (Israel and the Palestinian territories), and serve as a congratulations card to be exchanged among the general public, especially World Day of Peace, corresponding to day 21-09 of each year in continuing the dialogue and peace humanitarian values fixed.

- Organizing forums youth annually hosted one of the countries the Euro-Mediterranean Partnership (Example: 300 young men and women), half of them Palestinians, Israelis and the other half of the various member countries of the Union for the Mediterranean as well as representatives of non-governmental space Euro-Mediterranean concludes with the announcement of "A generation of supporters of coexistence and peace."

- Production of a documentary audio-visual three-dimensional languages (Arabic / Hebrew /

English, French and if possible other languages) is centered content on the conflict between good and evil "that depicts a conflict hawks and doves and the war is ending victory doves" and the target group in this video are young people under 17 years old in particular and the rest of the slides age to be determined.

- The organization of sports tournament in football for young fans under the age of twenty from around the world, including Israel and Palestine, can any country in the Euro-Mediterranean space hosting will be accompanied by Bfagliat cultural youth centered on "the role of sport in promoting coexistence and peace." And then only in coordination with the structures national sports.

▪ Target Groups

- Based on the information work and associative.
- Men of education, art, sports, academics, culture and religion.
- Youth groups and women.

▪ effects and results:

- Development of network communication in local and regional communities and the empowerment of reconciliation and dialogue as an approach optimized to achieve peace, security and development.

- The emergence of leadership groups take the lead in this context to be able to develop new ideas, pushing to achieve these noble human values to help reduce the hatred between Arabs and Israelis.

- Development of partnership between the components of civil society advocacy for peace on both sides of the conflict.

- To deepen and spread awareness among local and regional communities and urged them to choose their representatives in the institutions of governance on the basis of moderation and the pursuit of peace, rather than follow the theorists of intolerance and war makers.

- Working to oppose all forms of intolerance and religious extremism, sectarian, ethnic and racial discrimination in all its forms and the consolidation of universal human values.

- To review the programs of the arms race with Governments and rein in the manifestations of nuclear proliferation to achieve a world free of weapons of mass destruction and thus make the world a safer and more stable.
